For values of z less than -3.49, use 0.000 to approximate the area.

The table entry for z is the area to the left of z.

A36 Appendix II Tables

TABLE 9 Critical Values for Spearman Rank Correlation,  $r_s$ 

For a right- (left-) tailed test, use the positive (negative) critical value found in the table under one-tail area. For a two-tailed test, use both the positive and negative of the critical value found in the table under two-tail area, n = number of pairs.

		One-ta	il area
